

# Trusted accuracy meets tested durability

## BladderScan i10 – the next-generation bladder scanner

BladderScan i10™, powered by ImageSense® technology, delivers trusted accuracy for every user, accelerated workflow, tough and ready dependability and certainty in your investment.

A partnership with Verathon® goes beyond the device itself. We deliver a comprehensive range of services tailored to your needs, giving you the power to maximise BladderScan® usage, minimise your cost of ownership and improve patient care.

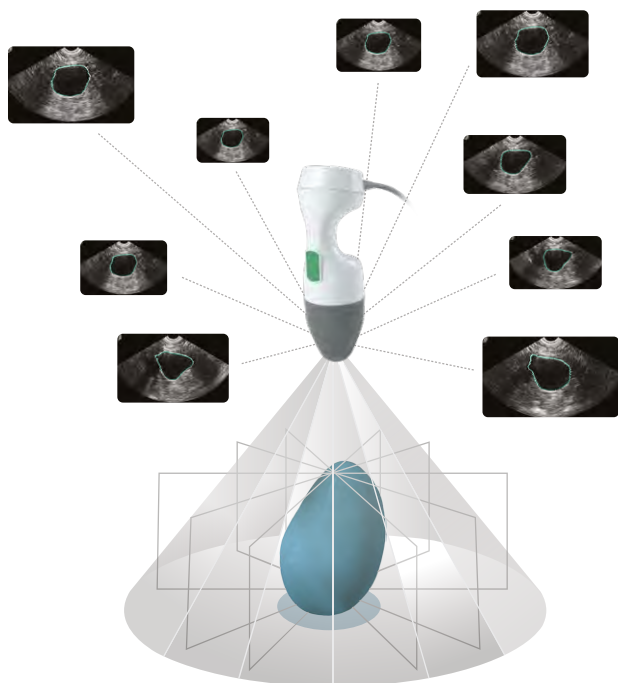

# Trusted accuracy for every user

Powered by ImageSense®, Verathon's groundbreaking artificial intelligence technology, BladderScan i10™ harnesses real-world data to consistently detect and define bladder location, size and shape across all paediatric and adult patient types and anatomies.

**± 7.5% on volumes greater than 100 mL<sup>1</sup>**

**± 7.5 mL on volumes less than 100 mL**

**CAUTI is largely preventable. Effective use of bladder scanner technology reduces unnecessary catheterisation by nearly 50%<sup>2</sup>, lowering the risk of infection.**

**Successful CAUTI reduction initiatives depend on broad use and adoption by patient care staff of reliable and dependable bladder scanner technology.**

1. Accuracy specifications assume BladderScan i10 is being used in accordance with stated instructions, scanning a tissue-equivalent phantom.

2. Clinical Care Improvement Strategies, Preventing Catheter Associated Urinary Tract Infections, 2013 The Joint Commission.

# Accelerated workflow

ImageSense®, combined with VMODE® probe technology, automatically measures the bladder volume within seconds.

- Large 10.1" (25.6 cm) optically bonded touchscreen reduces glare
- Interface uses intuitive graphics, automatic bladder location detection and BladderTraq™ contour tracking to guide the user through every step
- Simple charting tool easily transfers exam results to any electronic healthcare record system

Optimised for roaming through hectic hospital corridors, BladderScan i10 pairs with a quiet glide workstation.

- Single-handed probe docking keeps users focused on the patient, not on managing the equipment
- 360-degree handle enables easy positioning
- With both onboard charging and user-swappable battery, the system is always ready whenever and wherever you need it

## Simple EHR charting

Scan the touchscreen directly, or scan the printout.

- Large display with intuitive graphics
- Tilt and height adjustable
- VESA quick mounting
- Drip resistant IPX2 sealing

- Rugged 3D probe
- Fully-sealed IPX4 protection
- Light and flexible cable
- Single-handed docking

360-degree handle for easy transport and positioning

- Aluminium column
- No-slip track mounting

Printer (optional)

Generous storage space for supplies

- AC adapter for onboard charging
- Cable management and protection

Low-profile base with quiet glide wheels

## Tough and ready dependability

BladderScan i10™ is designed and built for continuous operation in taxing hospital environments.

- Durable construction consisting of medical-grade materials, metal gears and industrial-strength locking cables ensure reliable operation and high service availability
- No routine calibration is needed, even if you swap probes
- CaliScan™ probe diagnostics confirm probe function in the event of a drop
- BladderScan i10 passes a probe drop test that meets or exceeds a 4-foot (1.22 m) drop to a steel surface using the MIL-STD 810H standard

BladderScan i10 is designed to meet the new realities of infection control.

- Custom-blended medical grade materials withstand fast-kill disinfectants
- Rugged, fully-sealed IPX4 probe and drip-resistant IPX2 console ensure your precision electronics are protected

## Clean with ease

Chemically resistant plastics used at each critical touchpoint.

## Product highlights

**Accuracy for every user**

**Accelerated workflow**

**Tough and ready dependability**

**Flexible power management**

# Certainty in your investment

You can keep out-of-pocket costs to a minimum over the life of your device, with exceptional support and the option to upgrade to a comprehensive, premium warranty extension plan.

Complimentary on-site training, software updates and fleet management services optimise usage. Technical support and customer service teams are on call to augment your on-site support.

Verathon® enhances the value of BladderScan i10™ with exceptional support, so you can have peace of mind knowing your investment is working every day to improve patient care.

## Premium warranty extension plan upgrade

- Up to 5-years of comprehensive, premium coverage, including all damage and failures associated with the probe and console
- Same-day loaner shipping when your order is processed by 14:00 CET
- ‘One call does it all’. If you need assistance, our experienced customer service and full-line technical support teams are ready to help.
- Typical service turnaround within 5-days from receipt of instrument

## Optimised uptime

Your customer experience is our top priority. Here are a few examples of how we’re making your life easier:

- No routine calibration needed
- Onboard diagnostics to support your preventative maintenance programme
- Complimentary software upgrades allow you to update your instrument over time
- Quick transfer of configuration settings:  
Clone preferred device settings across the fleet
- Device configuration lockdown functionality ensures compliance with individual hospital regulations and best practices
- Service partner programmes

“

**“Verathon’s on-site support has reinvigorated our bladder care programme and helped us improve our CAUTI prevention practices.”**

Jonathan Kuehn, BSN, RN-BC  
Aspirus Wausau Hospital, Wisconsin

# Training and education

It takes more than a great device to improve patient care. You also need the know-how that enables you to fully integrate the device into your practice. Verathon® provides the education and training to enable clinical adoption of your BladderScan® purchase:

- On-site training
- Comprehensive training videos to educate on the product and bladder scanning skills
- In-service resources: posters, sign-in sheets, staff competency certification and comprehensive overviews and quizzes

Let our team help you develop a plan that maximises your BladderScan usage and streamline your operations so you can get the most out of your system.
